8c.	If your institution experienced more than a one-year increase (or decrease) of 50%, please explain: Face to face courses were converted to Distance Ed modality due to COVID-19 restrictions and counted as DE courses in Fall 20 and Spring 21.							

8. Additional Instructions and Data Definitions:

Distance education is defined as education that uses technology to deliver instruction to students who are separated from the instructor(s) and to support regular and substantive interaction between the students and the instructor, either synchronously or asynchronously. For the purposes of this report, include only those courses that are 100% online in your calculation of unduplicated headcount enrollment for distance education. Do not include hybrid courses or courses in which all the class hours are face to face, but some material is posted online.

8a. IMPORTANT NOTE REGARDING DATA FROM SPRING 2020: When calculating total DE enrollment for 2019-20, please include 100% online courses from summer 2019, fall 2019, and winter 2020. For Spring 2020, please include only courses that were originally scheduled as 100% online. Omit any courses that shifted to a distance modality due solely to the COVID-19 pandemic.

9.	Do you offer Correspondence Education?	Yes						
9a.	Total unduplicated headcount enrollment in all types of Correspondence Education for last three years:	<table border="1"> <tr> <td>2018-19</td> <td>0</td> </tr> <tr> <td>2019-20</td> <td>0</td> </tr> <tr> <td>2020-21</td> <td>635</td> </tr> </table>	2018-19	0	2019-20	0	2020-21	635

9b.	Percent Change 2018-19 to 2019-20: (calculated) Percent Change 2019-20 to 2020-21: (calculated)	N/A 100%						
9c.	If your institution experienced more than a one-year increase (or decrease) of 50%, please explain: Courses for students in the inmate education program were offered by Correspondence due to lockdowns in classrooms at prisons and jails.							

9. Additional Instructions and Data Definitions:

Correspondence education is defined as education in which (1) the institution provides instructional materials (and examinations on these materials), by mail or electronic transmission (including transmission via learning management system) to students who are separated from the instructor; and where (2) interaction between the instructor(s) and the student is limited, is not regular and substantive, and is primarily initiated by the student. Online courses or online portions of courses which primarily involve "paperwork" (e.g., reading textbook and other materials posted by the instructor, taking examinations, and submitting assignments) will fall within the definition of correspondence education rather than distance education. If the online portion of a class meets the definition of correspondence education, then even if the class also meets on site, it will be considered a correspondence education course for Title IV qualification

purposes. Correspondence education is not considered distance education within the U.S. Department of Education definition (see question 8, above).

19.

19. Additional Instructions and Data Definitions:

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2020-21 job placement rate will be the number of students who completed the program in 2019-20.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2019-20, you do not need to report a job placement rate for 2020-21. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition provided that you describe this definition in Question 20.
