- IV. One Reading Items—Course Revisions (To be implemented Fall 2020 pending local approval and CCCCO chaptering)
 - A) **AAT**
 - 1) Item Pulled
 - B) **ADT**
Course author reports difficulties with Cnet not saving changes, including correction of typos. Other required corrections include: DE section should indicate Hybrid Only, SLOs should not say “demonstrate understanding” but should indicate what students will do to demonstrate their understanding.

Committee also looked at list of AAT and ADT courses that have identical or almost identical course titles and similar course outlines. To avoid

duplication of curriculum, faculty in both areas should meet and determine whether one course meets both needs or not. If not, course outlines should clearly indicate that they are different courses.

**Motion to table all ADT courses pending discipline faculty discussing overlap of content and corrections in outline.
All ADT course revisions Tabled MSU.**

V. Chancellor's Office Guidance Memos

New guidance memos regarding noncredit course approval, periodic curriculum review, and new data elements were shared with the committee.

VI. Coding Project Plan and Calendar

The codes from COCI have been put into a spreadsheet and divided by area and discipline. During discussion it was determined that CC members

(working in groups) will verify particular codes. Some members volunteered to verify particular codes.

CB 5, CB 25: Gabriela Lopez and Joel Torres

CB 09: Violeta Wenger

CB 03: Ann Wright, Kelly Locke

CB 04: Maria Ceja, Norma Cuevas

Others will be matched to members at a later date. Once they have been vetted, each department will get a copy of the spreadsheet for its courses and will be able to provide feedback on the coding. Then they will be brought to the CC for approval.

One concern about keeping codes updated is that transferability comes AFTER Curriculum Committee approvals. UC transfer proposals are submitted in fall and should be updated at the beginning of the following fall based on UC approvals. CSU proposals are submitted in December and approvals are done in spring. So they could be updated at the beginning of the following summer or fall.

VII. **GE Subcommittee Update**

Each Core Competency has been matched to each GE course. Later work will include creating an approval rubric.

VIII. **ADJOURNMENT**

Next meeting date is 11/7/2019
