The committee had discussion about math prerequisites for CHM courses. In many cases the prerequisites are required for articulation and colleges have been advised by ASCCC not to remove prerequisites if the only reason for removal is AB705. However, eligibilities due to new placement processes don't indicate algebraic competency. Specific math competencies required for CHM courses as well as methods by which students can meet the competencies will be discussed and determined by CHM, BIO, and ECO in the spring semester.
